SINCE 1967

# BUILT IN ILOILO. BUILT TO LAST GENERATIONS.

1967

*Founded in 1967 by Jose Antonio Celis in Iloilo City, Jacsons' began as a family enterprise selling office equipment and steel furniture for the Visayan market.*

In the **1970s**, the business transitioned from distributor to manufacturer, becoming one of the pioneer steel furniture makers in Western Visayas.

Incorporated on **January 20, 1983** as Jacsons' Metalcraft Industries, Inc., the company established its workshop in **1987** at Baltazar Industrial Subdivision, Baldoza, La Paz, Iloilo City — where it still manufactures today.

Now in its second generation of family stewardship, the company builds steel filing cabinets, storage cabinets, vaults, lockers, office and industrial storage, and made-to-order fabrication for government offices, schools, hospitals, banks, businesses, and residential clients.
